Many of our regions are active holding meets and railfanning trips within their boundaries as well as publishing their own newsletters (these are available at a slight extra cost). In addition, our regions have developed a number of model railroad systems which you can join. These systems help to link up members' railroads throughout the region and extend the "beyond the basement" concept by introducing interchanges. These interchanges can be real or imagined between various system members. Below is a listing for each of our regions showing the services it provides, what it costs to join and who to contact for more information.

IMPORTANT!

You will notice that this Directory bears the number 223. This is the sequential number that appears on all TAMR publications. On your address label, you will find such a number. These numbers are used in determining when your membership expires in the TAMR. The number on your address label is the last issue of the HOTBOX or the Directory to which you are entitled under your current subscription. A renewal notice will be enclosed with that issue to facilitate your renewal.

When you fill out your applications, PLEASE PRINT VERY LEGIBLY. Please don't put lines through the number "7" because this is sometimes looks like an "F". The numbers "4" and "9" are also easily confused, so be careful when you print it out. By filling your application out correctly the first time will save both you and I a lot of trouble.

COLLEGE STUDENTS or other persons away from home who wish to have their publications delivered to them at a different address should do the following: 1) Provide me with the exact number of months you want the publications delivered to your new address. 2) Provide me with the exact number of months you want the publications delivered to your home address. 3) Provide me with the name of the first month for delivery to your new address and the name of the last month for delivery to that address.

(continued on back page)

(Continued from page 3)

This Directory is probably the most useful tool that you will receive in the TAMR. Use it to write and make new friends as well as to advance your trading interest, whether it be to trade photographs or passes.

The names of the officers are listed on page two of this Directory. This is listed so members can contact the officers easily. We need to know your input, so write us often and let us know what your thoughts are about the TAMR and how to improve the club.

TAMR Secretary
